

THE 5TH ANNUAL FATHER'S DAY CAR SHOW

By Terry Wagner

We started the day at 6:00 am the sun wasn't up and you could feel the anticipation in the air. The girls were busy setting up the Milestone booth; the guys were hashing out last minute details to park the automobiles. Our first cars were lining up at the entrance and we were ready to get the show started.

The show kicked off at ten o'clock. Our D. J. Brian was great at starting the day with horns honking. He provided great music with an automobile theme. Our vendors were set to sell, sell, and sell. The smell of food from the food vendors were already in swing. We didn't think the sun was going to show but it peeked out around noon. It turned out to be one of the nicest days of the year at the Channel Island Harbor.

Our raffle booth was humming with gifts carefully collected by club members Carolyn and our friend Terry Miller. Overflowing baskets were put together by Bee and Terry. The 50/50 raffle made its way to \$500.00 dollars. The raffle was won by our president Bob Ragan who promised to buy drinks afterwards.

We ended up with 183 automobiles in our show. The patrons seemed to be very happy with the show and they seemed to be looking forward to coming again next year. A portion of the show proceeds will benefit local charities.

At the end of the remarkable day when everything was packed away in our classic cars, we all took one last look back. The only things left were the tire marks on the lawn reminding us of a job well done.

We want to give a very big thanks to our Chairman Jerry Lybolt and the registration chairman Bernie Hackett. They make the job look easy. Plus a big thanks to all the members who helped with putting this great show together. If all goes well we will see you next year. *(See photos on pages 4-5)*

OFFICERS

President: Bob Ragan(818) 880 - 4262
 Vice Pres: Max Schulze(818) 991 - 4443
 Secretary: Carolyn Ragan ... (818) 880 - 4262
 Treasurer: Art Adams(310) 601 - 6889

BOARD OF DIRECTORS

Terry Wagner, Chairman (818) 597 - 1022
 Bernie Hackett (805) 485 - 2980
 Joan Hackett, Historian (805) 485 - 2980
 John Milliken(818) 735 - 9588
 Bee Lybolt(805) 985 - 8143
 Jerry Lybolt(805) 985 - 8143

From the President's "Square Office"

Fall is here with car shows all around us.

The first one on the calendar was, our 5th Annual Milestone Father's Day Car Show and it was the largest turn out of fabulous cars and spectators ever. With over 180 cars and a walk through crowd, we could not begin to estimate the size.

Thank you to all the club members and their family for the dedication, time and support. With out all of you our event would not have been the success it was.

A memorial was set up at the Milestone booth for our fallen heros Ron Kinyoun and Dan Fenske, thank you Bee Lybolt.

A hard luck award is in the mail to Mike Wiener for his call to duty, for digging it out of the bush. What a hero, he single handed saved that car guy from the smell.

Additional events covering this calendar year are:

September 18th beach meet in Ventura (J. Lybolt)

November event is open (over nighter?)

December Christmas party at the Junk Yard on December 3rd

December is the City of Oxnard XMAS parade

THANK YOU ALL Bob Ragan 818-880-4262

These are the events for the next few months.

September 18th BEACH MEET in Ventura (J. Lybolt)

October Halloween Party 29th

November event is open (over nighter?)

December XMAS Party

Hold this date Saturday the 3th of December at the JUNK YARD in Simi Valley — details to come.

December is the City of Oxnard XMAS parade

DASH MAN

By John Milliken

I am a dash man. I seldom buy a car, be it new or Classic, that doesn't have a beautiful dash. Old dash, new dash, sexy dash, curvy dash, big dash, small dash. I love dash. The dash, after all, is the "face" of the car for me. It is what you see the most of when driving, and is integral to the whole personality of the car.

I first became aware of my special attraction to dashes in the summer of 1970, at a small town car show in Binghamton,. In southern New York state. I had just parked my 1938 LaSalle convertible coupe on a pleasant berm overlooking the show, when a gorgeous 1934 Packard convertible coupe, resplendent in black with brown interior pulled along side and parked next to me, its top was down and it was driven by a very elegant lady, its original owner. I had actually met her at another show, earlier, when she drove her '38 Buick convertible, also purchased new by she and her late husband. But that could be another story. This '34 Packard was my first real look at a Classic era dash, and I fell in love with it. Rich burl walnut wood graining surrounding a beautiful chrome instrument bezel, flanked with carpathian elm trim. I stared all day at that dash, and vowed to some day own one of these cars. The wish came true many years later, as I have

owned and restored a '34 Packard convertible sedan and a convertible coupe in recent years. That ownership even confirmed my interest, as, at night when driving those cars I could have the choice of the soft light of a map light shine over the panel or the wonderfully green glow of the background lighting of the instruments.

Another great Classic era dash is found on the 1936-37 Cord. As a former commercial pilot for Delta, I can really relate to this cockpit inspired instrument board. I used to think that Cord and Chrysler Airflows had the best of the Art Deco dashes, until I read an excellent article last year in *Collectible Automobile* magazine on the 1936 DeSoto. This article featured jeweler, Nicol Bulgari's 1938 DeSoto convertible sedan (my favorite body style). Wow, now there is a highly embellished dash from the Art Deco/Art Moderne style. I am now searching for one of these cars.

The judicious use of wood grain in Classic era dashes offered beauty and luxury even in the lesser cars of the day. Ford, Chevrolet, Plymouth- all used it generously. Other Classic dashes combined woodgrain with a jukebox theme, as with the wonderful dashes from Buick in 1940 and '41 and the Cadillac from 1941. By jukebox I refer to the prominently chromed centrally located radio/speaker grills. The jukebox theme also was featured postwar in the 1946-48 Lincoln and Continentals.

But it was during the post Classic era of the 1950's, particularly after the space race began with Russia's launch of Sputnik satellite, that some of America's greatest dashes came into being. How about the 1958-60 Lincoln and 1959-60 Cadillac. We are talking MASSIVE

MILESTONE BIRTHDAYS

dash here. Then there is CUTE dash. My all time favorite of the cute dashes is the 1958-62 Corvette (my high school years), of which I have owned several examples.

Remember all those wonderful science fiction movies of the 1950's? *War of the Worlds*, *Invaders from Mars*, *It Came from Outer Space*, and my favorite, *When Worlds Collide*. Or how about *Forbidden Planet*, with a young Leslie Nielsen and a robot, named Robie. That movie brings to mind another great dash, perhaps the greatest of them all: The famous Astradome from 1960-62 Chrysler. I think that when Robie the Robot went to robot heaven, the designers took his massive glass globe of a head and turned it sideways, installed little floating gauges and mounted the whole unit in 1960-62 Chrysler. GREAT DASH. I love dash.
